## The Free Kindergarten.

An informal meeting was held last evening in the rooms of the new Kindergarten. The following letter from Mrs. Westendorf, Professor of Elecution in the College of Music, was read before the meeting by Mrs.

CINCINNATI, March 1, 1880.

Mrs. Alphonso Taft, President of Free Kinder-garten Association: DEAR MADAM: Now that the Free Kindergarten is not only a possibility, but a certainty, aside from my membership, I want to extend what help I can towards the real work of the undertaking. The only active part I can take will be to train the teachers in the physiological speech method, so that they will be able to use the only right method in teaching little children speaking and reading. I mean the phonic me hod. In my work with different grades of pupils it has always been successful; but the happiest results are being attained at Miss Goodman's school, where the class usually numbers twenty. I can arrange to meet the teachers at the Public Kindergarten, or have them meet me at my some. This can be determined later should you see lit to adopt this plan and method. course the teachers can not go to work at once teaching the children. They will have to be somewhat at home in the w rk I shall pursue with them. I am sorry I not be with you this afternoon, but shall find time to enter upon my work with the teachers as soon as your Committee shall see fit.

Very respectfully, KATHARINE WESTENDORF. Mr. Benn Pittman presented the Garten
